CABIN INTERIOR

CARGO BAGS, CONTAINERS & NETS

CARGO BAGS

The Cargo Seat Bag comes as a spacious 76x76x147 cm (30x30x58 inches) kit for a triple seat, with up to 75 kg (165 lb) of cargo to be stored on the seat and additional 9 kg – under the seat, totaling 252 kg (555 lb) per a triple seat block.

The kit can be easily installed within just several minutes and can include a wide range of cargo types: from postal correspondence, household goods, electronics and other commercial cargo to medical equipment and other kinds of humanitarian supplies.

CARGO NETS

The Cargo Nets with restraint straps allow to use passenger cabin to perform cargo flights on cabin floor without cargo pallets and are designed for narrowbody passenger cabins of Airbus A321 and widebody passenger cabins of Airbus A330, A340 and Boeing 767.

MISCELLANEOUS BAGS/BOXES

Emergency Equipment bags/boxes
Life Vest Pouches
Cabin crew bags
Literature Pockets

CARGO CONTAINERS

The Cargo Containers come in five different sizes and are designed for widebody passenger cabins of Airbus A330, A340 and Boeing 767, 777. Each equipped with its own smoke detector, the Cargo Containers are intended for temporal replacement of passenger seats while converting the aircraft's cabin for transportation of cargo of any type.

MONUMENTS

We offer a various monument standards, shapes and sizes. From typical half-size stowage to a customized full height monument with wide range of accessories assortment and trim finish.

CABIN CREW REST AREA

Cabin crew rest area as a setup to let your cabin crew rest for long-haul flights. Our cabin crew rest area can be used to surround from one to three seat rows in passenger cabin.

MOVABLE CLASS DIVIDER

Create a physical separation between two classes by selecting one of the offered divider design: easy-removable or non-removable, with or without NS/FSB signs, luxury and precise design or budget variant as a temporary solution.

DOGHOUSE

For better UX leave more space within stowage bins for travel bags and relocate emergency equipment to lockable doghouses.

PARTITION

Will it be typical or curved shape partition for cabin passenger separation, or a windscreen with extra doors for easier carry-in stretcher, we have the solution.
